The reasons listed are: "Incorrectly typed email address", "Slow mail processing", "Reply-me mail protection", "Mailbox problems and quotas", "Anti-spam filters", and "General connection problems". A final note says: "Unfortunately, we have no resources to cope with all possible kinds of mail server (mis)behavior. If you believe you have a problem related to your mail server and want to solve it quickly, either contact your system administrators or try to get and use an email address from one of major mail hosts, such as a Google Mail, Yahoo Mail, or Hotmail.
